Personality Type: **ESTJ**

You described your profile as: **Mostly Accurate**

Your final personality score is determined by additional factors that may not be represented on this graph.

Introduction

Of the many factors that contribute to a successful future, an understanding of Personality Type is among the most useful.

While interests and skills change during the course of a person's life, the one thing that does remain constant is an individual's Personality Type - the innate way each person naturally prefers to see the world and make decisions. And although all individuals are unique, people of the same type share enormous similarities in the kinds of academic subjects and careers they find interesting, and the kind of work they find satisfying.

Career Cluster Finder

- The Career Cluster Finder is a simple assessment that helps a student discover which career clusters may be a good match based on activities that interest him/her, personal qualities the student has, and subjects the student enjoys in school.

Career Interest Profiler

- The Career Interest Profiler is an online career interest assessment for students based on **Holland's interest codes**. This assessment has approximately 180 questions. The results of the assessment include the student's Strongest interests in green with definitions of all the Holland interest codes. Students can view matching careers and career clusters organized by the amount of preparation each needs.

The screenshot shows the Career Interest Profiler website. At the top is a navigation bar with links: home, colleges, careers, about me, and my planner. Below the navigation bar, on the left, is a search section with a text input field, a 'Go' button, and a link to 'MORE SEARCH OPTIONS >>'. Below the search section are three links: 'explore careers', 'what are my interests?', and 'career interest profiler'. The main content area is titled 'my career interest profiler' and displays the results: 'Here are your results:'. The results list six interest codes: Realistic: 2, Investigative: 6, Artistic: 25, Social: 6, Enterprising: 2, and Conventional: 0. Below the list, a paragraph explains that the strongest interests are in green and that more occupations meeting interests are more likely to be satisfying. A button labeled 'View Matching Occupation List' is present. At the bottom, the 'Definitions' section starts with 'Realistic: Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.' and 'Investigative: Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve'.

The averages below are for students from your high school that have been accepted to that particular college.

School averages are displayed in green when your number is higher and in red when your number is lower.

Your PSAT score, if available, has been converted to the equivalent SAT score and compared to the average single SAT score of an accepted student. Your PLAN score can also serve as a direct estimate of your ACT score and can be compared to the average ACT score of an accepted student.

The column labeled "Accept" shows the number of students accepted out of the number of students that applied.
